LEGITIMIZING INSTRUMENTS

Banks, financial institutions, and corporations in developing jurisdictions often find it difficult to have “INSTRUMENTS” they issue accepted.

THE BLUE MILLENIUM FOUNDATION offers help through arrangements made with licensed Wealth Management Groups (“WMG”) contracted with MCORP/DBII.

That is, if such INSTRUMENTS are securitized by a contracted licensed WMG, THE FOUNDATION has made arrangements so that MCORP/DBII may offer to purchase them:

Through the Brokerage System, at full face value through the SERVICES CONTRACT PIPELINE Protocol in DBII ALLEY Portal in www.chips-corner.com

EXAMPLE

Many BCBG Members have deposited Documentary Funds (UAPN and IBOE) with the International Bank of Meekamui (“IBOM”, see www.ibom.biz).

Many of these accounts have significant value measured in BVK.

A contracted WMG, licensed to deal in securities, has verified IBOM assets and has visited the IBOM physical location in Meekamui where IBOM “counters” are located.

A BCBG Member may arrange to have IBOM issue, for example, a LETTER OF CREDIT or a STANDBY LETTER OF CREDIT as INSTRUMENTS.

When such an INSTRUMENT is issued, the Beneficiary may arrange to have the contracted WMG verify and securitize the INSTRUMENT:

So that any other party can buy it through the world brokerage system.

In order to fund the securitization, the WMG may pre-arrange to have it purchased by MCORP/DBII, with full face value and all securitization costs paid by MCORP/DBII:

Through the SERVICES CONTRACT PIPELINE in place of EUROPEAN ENERGY BONDS, REVENUE SHARING OBLIGATION SERIES A BONDS, etc.

Because MCORP has in place a SERVICES CONTRACT with a licensed WMG that trades in bank debentures that MCORP can use to provide funding of any amount for any purpose:

Applying the “Mark to Market” rule, this offer by MCORP/DBII, arranged by THE FOUNDATION, legitimizes value for INSTRUMENTS presented to be processed.

PURCHASES BY PARTIES OTHER THAN MCORP/DBII:

If any party other than MCORP/DBII purchases an INSTRUMENT so securitized, either when securitized or subsequently from DBII:

The “U.S. DOLLAR BACKED BY GOLD” Protocol/Portal found in www.chips-corner.com may be applied to obtain a 100% rebate from THE FOUNDATION.

Thus, for example, instead of having to present an INSTRUMENT to the counters of IBOM in Meekamui for collection, a holder thereof may obtain the funds by:

Presenting the INSTRUMENT to a licensed contracted WMG to be securitized and sold, with MCORP/DBII already positioned, as per this NEWS BULLETIN, as a buyer.

The realization of funding through this process does not depend on the nature of the INSTRUMENT, its underlying collateral, or the “world acceptability” of the issuer:

It is dependent on the market for bank debentures issued by major European Banks.

PURCHASES BY MCORP/DBII:

For an instrument issued by IBOM to be acquired by MCORP/DBII, the Beneficiary of the instrument must be an ICIB WORK CENTER that has an account with IBOM.

That is, a Member wishing to use this Protocol would negotiate and contract privately with a CENTER.

To be assigned a CENTER, send an email to centerassign@change2100.com

The Beneficiary Account, specified in the request for an instrument to be issued by IBOM, would be the IBOM account designated by and belonging to the CENTER.

The CENTER would select a licensed WMG to securitize the instrument.

The WMG would notify MCORP it is ready to securitize the instrument as soon as funds for payment are available to MCORP from SERVICES CONTRACT PIPELINE transactions:

See SERVICES CONTRACT PIPELINE in the DBII ALLEY Portal of www.chips-corner.com

The price MCORP would pay for the instrument would be the face value plus securitization costs, which would include any agreed upon surcharge by the securitizing WMG.

CENTERS and Members can accelerate payment through the SERVICES CONTRACT PIPELINE:

By promoting the OFFER TO PURCHASING/TRADING DEPARTMENTS Protocol in the DBII ALLEY Portal of www.chips-corner.com

For more information, contact an ICIB WORK CENTER.

To be assigned a CENTER, send an email to centerassign@change2100.com
